

St Michael's Church Tilehurst

August 2010

Dear Friend in Christ,

We have been considering ways of keeping members better informed of services and events at St Michaels. We would like to use email as one of the ways to achieve this, as many people now use this form of communication. There are several benefits not least the reduction of printing costs, a saving for the church and the environment. Pew notices could be sent out prior to the Sunday service this also enables those not attending to be kept informed of church activities.

Details of events such as concerts, working parties, quiet days and special services etc. can be sent directly to you; however, we will endeavour to limit information emails to a maximum of one a week. Of course, it is appreciated that not all use or may want to receive news by email and printed copies will always be available.

If you would like to be kept in contact this way, please would you either email your full name and email address to notices@stmichaeltilehurst.org.uk or complete the form below and return to Pat MacDonald, the contact list organiser, via her pigeon hole in church. The information will be added to our contact list.

Many blessings

Revd John Rogers
